Prediction: N: the car is turning left

R: because the car is making a left turn onto a different street

GT: N: the car turns left

R: because the car slowed down to be able to turn left

Prediction: N: the car is merging into the lane to its left

R: because there is a gap in traffic in its lane

GT: N: the car pulls into the left lane

R: because now that lane is moving faster

Prediction: N: the car is stopped at an intersection

R: because the light is red and pedestrians are crossing the street

GT: N: the car stops

R: since the light is red and there are people crossing the road.

Prediction: N: the car is slowing down and coming to a stop

R: because there is a stop sign

GT: N: the car is slowing to a stop

R: the car has arrived at an intersection controlled by a stop sign
